

Dimensions of Integrated Container Racks for Island Use

Overview

One rack has five welded frames with a spacing of 1. The load per one shelf is 300 kg (shelf dimensions 45 × 530 cm) or 60 kg / m of shelf, while the entire rack is designed for a maximum load of 800 kg. Flat-rack containers are the first choice when machines, components or vehicles exceed standard dimensions in length, width or height. Almost any cargo can be carried in our containers. Whether the goods are loaded in bulk, bags, or cartons in standard containers, or out of gauge goods and project cargo on flat racks, or fruit, meat, fish and other goods requiring temperature control in reefer containers, cMA. Covering special stuffing & transportation needs with the unique Hapag-Lloyd Hardtop containers At Hapag-Lloyd, we cover a wide range of standard and special containers to ensure that you can choose exactly the right equipment for your commodity. This container specification booklet provides. SEA BOX's selection of 20' and 40' flatracks provides transportation solutions for large cargo that needs special loading options such as pipes or machinery.
