

Dimensions of the Layered Distribution Box

Article Overview

Layered distribution boxes, such as the EKDB10 series, come in single, double, or triple layers with dimensions varying by the number of ways and layers.

EKDB10 Series Distribution Box

The EKDB10 IP65 waterproof distribution box is made of durable PC plastic and is suitable for industrial, commercial, and photovoltaic applications. It is available in single, double, or triple layers, with configurations ranging from 4 to 39 ways. While exact dimensions depend on the number of ways and layers, typical EKDB10 boxes are designed to meet IEC standards for electrical protection and mechanical strength.

Typical Plastic Modular Distribution Boxes

For reference, other modular plastic distribution boxes, such as the MB-ABC series, have the following dimensions :

- MB-ABC500: Length 200 mm, Width 174 mm, Height 95 mm
 - MB-ABC700: Length 255 mm, Width 172 mm, Height 95 mm
 - MB-ABC900: Length 328 mm, Width 172 mm, Height 95 mm
- These boxes are made of flame-resistant ABS plastic and are suitable for indoor and outdoor installations. The height may increase slightly for double or triple-layer configurations, depending on the number of modular units stacked....
