

Fiber optic adapters sold directly by the company

Article Overview

Yes, fiber optic adapters are sold directly by the manufacturing companies themselves, often with options for samples, quotes, or direct orders.

Direct Sales by Manufacturers

Many leading fiber optic companies manufacture and sell adapters directly to customers. For example, Corning produces high-quality connectors and adapters that meet strict industry standards and offers free samples for first-time orders, emphasizing low insertion loss and long-term stability . Similarly, Molex provides a wide range of fiber optic adapters, including high-density and next-generation solutions, with factory-terminated options for rapid deployment . Precision Fiber Products, Inc. also sells adapters directly, offering SC, LC, ST, and FC types for diverse network requirements . FiberMania provides premium adapters with B2B customization services, ensuring compliance with international standards and high reliability .

Benefits of Buying Directly

Purchasing adapters directly from the manufacturer ensures:

- High-quality components with verified performance and low insertion loss .
- Access to technical support and guidance for selecting the right adapter type for your network
