

How much does an Austrian plastic fiber optic cable cost

Article Overview

Plastic fiber optic cables in Austria typically cost between €0.05 and €1.50 per meter, depending on fiber type, construction, and specifications.

Price Range

For standard plastic optical fiber (POF) cables, the unit cost ranges from approximately €0.05 to €1.50 per meter. Lower-end prices apply to simple, single-core indoor cables, while higher-end prices reflect multi-core, armored, or outdoor-rated cables with specialized jackets or environmental protection. Retail prices for small quantities may be higher, around €1 to €6 per foot, while bulk purchases reduce the per-meter cost.

Factors Affecting Cost

- **Fiber Type:** Plastic optical fibers are generally cheaper than glass fibers, but single-mode or multimode glass fibers are preferred for high-speed or long-distance applications.
- **Fiber Count:** A 2-core cable is significantly cheaper than a 24-core or 96-core cable. Higher strand counts increase material and production costs.
- **Cable Construction:** Options include loose tube, tight-buffered, armored, or non-armored. Armored or rodent-protected cables add 20-50% to the base cost.
- **Jacket Material and Rating:** Indoor PVC or LSZH jackets are cheaper, while outdoor PE or UV-resistant jackets designed for aerial or direct-burial installations cost more.
- **Pre-Termination and Connectors:** Factory-terminated cables or patch cables with c...
