

# How much does it cost to replace a distribution box

## Article Overview

Replacing a distribution box typically costs between \$1,200 and \$6,000 in the U.S., depending on panel size, location, and complexity.

### Typical Price Ranges

- 100-125A indoor panel: \$1,200-\$2,500 including labor and materials.
- 200A outdoor panel with new meter socket: \$3,000-\$6,000, depending on wiring length and installation complexity .
- U.K. residential distribution board: £300-£500 for a standard installation, including a modern metal fuse box with breakers .

### Factors Affecting Cost

- Panel Amperage: Higher amperage panels (e.g., 200A) cost more due to larger components and increased labor .
- Location: Outdoor installations or hard-to-access areas increase labor and material costs .
- Wiring Complexity: Longer or rerouted wiring, or replacing the service drop, adds to the total cost .
- Material and Features: Enclosures made of stainless steel, weather-resistant materials, or smart monitoring systems are more expensive .
- Permits and Regional Labor Rates: Urban areas or regions with higher permit fees can increase costs by 5-15% above the national average ....
