

Indonesian Managed Industrial Switches

Article Overview

Managed industrial switches in Indonesia are available from local distributors like Elmecon Multikencana, ATOP, and Panca Kumala Jaya, offering rugged, configurable, and protocol-compatible solutions for industrial networks.

Key Suppliers and Distributors

Elmecon Multikencana is a prominent Indonesian distributor providing managed industrial switches from brands like Moxa, Omron, ABB, and Tai Sin. They offer original, certified products with technical support, installation, and end-to-end services for industrial automation, predictive maintenance, and network integration. Their solutions include connecting PLCs and industrial computers to cloud systems via industrial WLAN, Moxa AWK/WLAN bridges, and Moxa EDS switch hubs, suitable for factories, data centers, and large facilities. ATOP Technologies provides industrial networking solutions for power stations and industrial environments, focusing on reliable, secure, and time-precise networks. They offer both ready-made and customized industrial switches, supporting interoperability and robust network management for critical infrastructure. Panca Kumala Jaya supplies modular industrial switches and other electronic systems like CCTV, fire alarms, and cable solutions. They provide design, installation, and maintenance services for industrial networking and automation. Seconit Indonesia offers Red Lion N-Tron NT24k series all-Gigabit managed industrial switches, designed for extreme environments with high shock and vibration tolerance. These switches support multiple media options, high-speed networking, and advanced management features, suitable for factory automation, utilities, water/wastewater, security, and transportation applications
