

Intelligent Micro-module Cabinet Manufacturer

Article Overview

Leading manufacturers of intelligent micro-module cabinets include Inspur, Jiangsu Datang Weishi Technology Co., Ltd (DTVS), and Delta, offering highly integrated, energy-efficient, and modular solutions for modern data centers.

Inspur

Inspur provides intelligent micro-module products that combine factory prefabrication with on-site modular installation for rapid deployment and flexible expansion. Their solutions integrate cabinets, cold aisles, access control, cooling, power distribution, and security systems. Inspur emphasizes energy efficiency through technologies like fluorine pump air conditioning, efficient UPS, and intelligent bus systems, delivering agile and cost-effective data center operations .

Jiangsu Datang Weishi Technology Co., Ltd (DTVS)

DTVS specializes in intelligent cabinets for micro-module data centers, offering customizable capacities from 15U to 42U. Their cabinets feature durable, secure designs with IP20-rated protection, integrated power distribution units, cooling fans, and equipment management systems. DTVS focuses on intelligent perception, power control, data and image fusion, and remote operation, supporting energy-efficient and highly automated smart computer rooms .
