

Lightning Protection Distribution Box Equipment Manufacturer

Article Overview

Leading manufacturers of lightning protection distribution boxes include Thor Electric, ECLE, and nVent ERICO, offering integrated surge protection solutions for various applications.

Thor Electric

Thor Electric specializes in lightning protection boxes that integrate surge protective devices (SPDs), circuit breakers, and isolation modules within a compact enclosure. Their TRSX series is widely used in meteorology, transportation, telecommunications, computer networks, electricity, residential distribution boxes, and railways. The boxes provide multi-level surge protection (Class B, C, D) according to IEC standards, ensuring protection against lightning strikes and induced surges. Thor Electric manufactures these products in Wenzhou, Zhejiang, China, and supports OEM orders with delivery in 15-30 days for bulk orders .

ECLE

ECLE is a North American manufacturer focused exclusively on lightning protection equipment. Their product line includes lightning rods, surge protection devices, and distribution boxes designed for residential, commercial, and industrial applications. ECLE emphasizes high-quality, reasonably priced equipment made in the USA, with distribution across North America, Central America, and the Middle East. They provide solutions for protecting structures, electronic systems, and critical infrastructure fro...
