

List Price for 2-meter Pigtail

Article Overview

A 2-meter pigtail for electrical wiring typically costs between \$2 and \$5 for materials, with labor and installation potentially adding \$25-\$150 per connection depending on complexity.

Material Costs

The copper wire used for pigtails generally costs a few dollars per 2-meter length, while specialized connectors like AlumiConn range from \$2 to \$5 each. If using a premium system such as Copalum, the cost may be higher due to specialized materials and tools required .

Labor and Installation

If you hire a licensed electrician, labor costs can range from \$25 per outlet for simple connections to \$100-\$150 per hour for more complex work. Installing a pigtail typically takes 10-20 minutes per device, so labor for a single 2-meter pigtail could add \$25-\$50 for a straightforward installation .

Additional Costs

- Permits and inspections may add \$200-\$500 if required by local code .
- Replacement of old outlets or switches with aluminum-compatible devices can cost around \$25 per device .
