

Mexico Direct Sales of 2-Core Long-Distance Optical Cable

Article Overview

2-core long-distance optical cables are available in Mexico through multiple local and international suppliers, supported by a growing optical fiber market driven by telecommunications and data center expansion.

Market Overview

Mexico's optical fiber and cable market is experiencing significant growth due to increasing investments in telecommunications infrastructure, cloud computing, and data center expansion. The overall wires and cables market in Mexico is projected to grow from USD 3.77 billion in 2025 to USD 5.43 billion by 2030, driven by industrial and IT sector demand . Active optical cables (AOC) and direct attach cables (DAC) are also expanding rapidly, with the market expected to reach USD 3.08 billion by 2033, reflecting a CAGR of 12.5% . This growth is fueled by high-bandwidth networking requirements, AI computing clusters, and hyperscale data center deployments .

Suppliers and Manufacturers

Several companies in Mexico manufacture and supply fiber optic cables suitable for long-distance applications. Key players include MAXFIBER® and other verified local and international manufacturers . These suppliers provide a range of optical cables, including 2-core configurations, designed for long-distance transmission, high reliability, and compliance with local regulatory standards. Many suppliers also offer installation support, testing equipment, and maintenance services....
