

Morocco fiber optic cable broken

Overview

A technical glitch disrupted high-speed train service between Kénitra and Casablanca on Monday morning, briefly halting operations and causing delays. When ongoing work near the Kénitra station accidentally severed a fiber-optic cable. Could also be something with your cable or LAN. Even in Ookla Speedtest?

My friend had an issue with his fiber as well, going daily to the agency and calling them each day, they've sent him multiple technicians who didn't figure it out. Accidental cuts, breaks, or other damage can disrupt your network and cause costly downtime. This wikiHow article will teach you how to splice a cut fiber optic cable back together with a fiber optic stripper and cutter and a fiber optic crimper. Backed by advanced production capabilities, we deliver certified quality, controlled lead times and local technical support. With CommMesh's advanced tools and solutions, you'll learn how to restore networks seamlessly.
