

Network patch panel brand manufacturers

Article Overview

Top network patch panel manufacturers include Leviton, Legrand, AMPCOM, CTK Contact Electronics, Opticonx, VADCON, and Kolorapus, offering a range of copper and fiber solutions for data centers, offices, and AV systems.

Leading Manufacturers and Their Offerings

Leviton provides a wide array of high-quality copper and fiber optic patch panels, supporting flexible configurations for enterprise, data center, and specialized applications, backed by global service and logistics support . Legrand North America offers structured cabling solutions including Clarity angled patch panels designed for high-density applications, suitable for both rack-mounted and wall-mounted installations . AMPCOM specializes in modular patch panels with shielded ports for reliable signal routing, supporting both copper and fiber terminations in professional network and AV environments . CTK Contact Electronics is recognized for producing reliable patch panels for LAN and fiber networks, often used in commercial and industrial setups . Opticonx manufactures a broad range of fiber optic patch panels, including wall mount, rack mount, and custom configurations, supporting splicing, patching, and cable management in telecommunications and data centers . VADCON focuses on video, audio, and data connectivity products, including patch panels, faceplates, and enclosures, suitable for integrated AV and network systems . Kolorapus offers high-density patch panels with user-friendly designs, ideal for organizing network connections in data centers or network closets, and specializes in optical fiber and data communication cables ...
