

Nicaragua Modular Data Center

Overview

The new data centre is located in the Nicaraguan capital of Managua. It was built in Flexenclosure's manufacturing plant in Sweden before being transported to site for final construction and commissioning. The eCentre has been custom-designed and reinforced to withstand seismic. Learn how prefabrication is revolutionizing data center construction, offering numerous advantages that streamline the building process. YoAhorroEnergia Data Infrastructure (YAE) delivers modular data centers, edge data. At DC Deployed, we specialize in guiding data center projects from conception to completion with unmatched expertise in Data Center Construction Management. OPTIM Data Center is now providing top quality service from the center of central America with a 40 feet container, designed and built to obtain a Tier III certification, with a wide capacity.
