

Nordic cable tray construction and installation

Article Overview

Nordic cable trays are designed for fast, flexible, and high-quality installation, with minimal tools and customizable configurations to suit any project.

Product Overview

Nordic Wire Tray (NWT) offers a wide range of wire trays, data racks, and accessories suitable for industrial and commercial cable management. Their X-Tray system is premium, durable, and adaptable, allowing trays to be cut, bent, and shaped to fit unique installation conditions. The trays require only an M8 bolt, bolt cutters, and a 13 mm wrench for assembly, reducing installation time and complexity. Stainless steel and other surface treatments are available for demanding environments.

Installation Guidelines

1. Planning and Site Preparation

- Ensure clear access for trays and tools, considering doors, pathways, and future maintenance.
 - Assess the environment: temperature, humidity, dust, vibrations, and potential chemical exposure can affect tray performance.
 - Verify structural support: floors, walls, or ceilings must handle the weight of trays and cables, especially for heavy-duty installations.
- #### 2. Tray Assembly and Support
- Assemble the tray system fully before pulling conductors to prevent cable damage...
