

Norwegian Telecommunications Cable Company

Article Overview

Norcable AS and Networks Centre Norway are key players in Norway's telecommunications cable management and infrastructure sector.

Norcable AS

Norcable AS is a Norwegian company focused on producing high-quality, sustainable cables, including aluminum and other industrial cables, using 100% Nordic hydropower . The company emphasizes sustainability, resource efficiency, and long equipment lifespans, integrating modern digital technology with human expertise to deliver environmentally responsible products . Norcable has recently expanded its production capabilities with a new state-of-the-art factory in Haugaland Næringspark, highlighting its commitment to innovation and industrial growth . The company is Eco-Lighthouse certified, ensuring compliance with environmental regulations and internal control standards .

Networks Centre Norway

Networks Centre Norway specializes in structured cabling and data center infrastructure solutions. They support data center owners, operators, consultants, and installers with components and practical delivery support, including racks, containment, structured copper and fiber cabling, MPO/MTP trunks, patching, labeling, grounding, and installation accessories . Their offerings also include intelligent rack PDUs, environmental sensors, and fiber runner systems for scalable...
