

ODN Optical Distribution Network Hot Selling Product Export Price Debugging

Article Overview

Hot-selling ODN products include fiber optic cables, optical splitters, and fiber distribution boxes, with export prices influenced by component type, technology, and regional demand.

Hot-Selling ODN Products

The most in-demand ODN components are:

- **Fiber Optic Cables:** Feeder, distribution, and drop fibers are essential for high-speed data transmission and are widely used in FTTH, FTTB, and FTTC networks .
- **Optical Splitters:** PLC splitters (1x4, 1x8, 1x32) divide optical signals to serve multiple users simultaneously, making them critical for network scalability .
- **Fiber Distribution Boxes (FDBs):** These provide organized housing for fiber connections and are versatile for various network applications, holding a 42% market share .
- **Pre-Connectorized Drop Cables and Terminal Boxes:** Increasingly adopted to reduce field splicing, labor costs, and human errors .
- **Fiber Optic Splice Closures and Patch Cords:** Protect splices and facilitate network management . Emerging products include bend-insensitive fibers and compact distribution enclosures, which improve performance and durability in harsh environments .

Export Price Considerations...
