

Price of Prefabricated Optical Cable Connectors

Article Overview

Prefabricated (pre-terminated) fiber optic cable connectors typically range from \$5 to \$50 per connector or assembly, depending on type, fiber mode, and strand count.

Pricing Overview

Individual Fiber Connectors: Standard optical fiber connectors such as SC, LC, ST, FC, and MPO can cost \$5–\$15 per piece for singlemode or multimode connectors, with higher-end APC or precision connectors reaching \$20–\$30 each, depending on quality and manufacturer . These connectors are often sold as kits or pre-assembled units for easier installation . **Pre-Terminated Fiber Assemblies:** Pre-terminated fiber optic cables, which come with connectors already installed at both ends, are more expensive due to factory assembly and testing. Prices vary based on:

- Fiber type: Singlemode (SM) or Multimode (OM1-OM5)
- Strand count: 2, 4, 6, 12, 24, up to 288 strands
- Cable type: Indoor, outdoor, armored, or hybrid with electrical wires
- Length: Custom lengths increase cost Typical pre-terminated assemblies range from \$20–\$50 for short, 1–5 meter single-strand cables, and can exceed \$200–\$500 for multi-strand, long-distance, or armored assemblies . Custom configurations, such as hybrid bundles or high-strand-count cables, are priced individually and often require a quote from the manufacturer .
