

Price of a 72-core optical cable

Article Overview

The price of a 72-core optical fiber cable typically ranges from \$1 to \$5 per meter, depending on type, brand, and installation requirements.

Price Range and Factors

- Alibaba listings show 72-core loose tube and ribbon fiber optic cables for outdoor and long-distance applications, with prices generally starting around \$1-\$3 per meter for standard single-mode cables, and higher for specialized armored or ribbon types .
- Made-in-China suppliers offer GYTS stranded loose tube cables with steel tape armor, suitable for duct or aerial installation, with prices varying based on fiber brand (Weixin, Corning, YOFC), cable length, and customization options . Bulk orders and factory-direct purchases can reduce per-meter costs.
- Specialized suppliers like SFiberoptic and MeFiberoptic provide GYTA53 and GYTY53 armored cables for direct burial, double PE sheathed, gel-filled loose tubes, and high mechanical protection. These cables are typically priced higher, around \$3-\$5 per meter, reflecting their durability, crush resistance, and suitability for harsh outdoor environments .
- CommScope 72-fiber OS2 loose tube cables are all-dielectric, gel-free, and suitable for direct buried, aerial, or conduit applications. These premium cables may cost \$4-\$5 per meter, depending on fiber type and jacket material .

Key Considerations Affecting Price

- Cable Type: Loose tube vs. ribbon, single-mode vs. multimode, armored vs. non-armored.
- Installation Environment: Direct buried, aerial, or duct installation affects material...
