

Price of cable tray integral connector

Article Overview

Cable tray integral connectors typically range from \$2 to \$15 per piece, depending on material, type, and supplier.

Overview of Pricing

The cost of a cable tray integral connector depends on several factors:

- **Material:** Common materials include galvanized steel, stainless steel, aluminum, and fiberglass-reinforced plastic (FRP). Stainless steel and FRP connectors are generally more expensive due to corrosion resistance and durability .
- **Type and Function:** Connectors for straight-line, end-to-end, or vertical transitions vary in complexity. Reinforced or specialized connectors for heavy loads or multi-level systems cost more .
- **Quantity and Packaging:** Bulk purchases reduce per-unit cost. For example, a 50-pack of steel wire mesh cable tray couplers is available on Amazon, which can lower the price per connector to around \$2-\$3 .
- **Supplier and Region:** Prices differ between suppliers like Alibaba, McMaster-Carr, and Amazon, and shipping costs may affect the final price .

Example Price References

- **Amazon:** A 50-pack of carbon steel wire mesh cable tray couplers is priced around \$100, equating to roughly \$2 per connector .
- **Alibaba:** Prices vary widely depending on material, size, and customization; bulk orders may reduce unit cost significantly, but exact prices require supplier inquiry
