

Price of fire-resistant cable trays in Lebanon

Article Overview

Fireproof cable trays in Lebanon typically range from \$20 to \$50 per meter, depending on material, size, and supplier.

Pricing Overview

The cost of fireproof cable trays varies based on material type, load capacity, and fire-resistance rating. Galvanized steel or aluminum trays are common, with galvanized options generally priced higher due to durability and corrosion resistance. Imported trays from China or Europe may include shipping and customs fees, which can increase the final price in Lebanon.

- Standard galvanized fireproof trays: \$20–\$35 per meter
- Heavy-duty or high fire-resistance trays: \$35–\$50 per meter
- Custom or OEM trays: Prices vary; quotes are typically required for bulk orders

Factors Affecting Price

- Material and Coating: Stainless steel or powder-coated trays cost more than standard galvanized steel.
- Tray Width and Load Capacity: Wider trays or those designed for heavy cable loads are more expensive.
- Fireproofing Certification: Trays with higher fire-resistance ratings or compliance with international standards (e.g., IEC, UL) command higher prices.
- Supplier and Shipping: Local distributors may offer slightly lower prices due to reduced shipping costs.
