

# Price per kilometer of 4-core optical fiber cable

## Article Overview

The cost of one kilometer of 4-core optical fiber cable ranges from approximately \$400 to \$1,800, depending on type, construction, and environmental rating.

### Price Breakdown

- Basic indoor 4-core single-mode OS2 cable: Around \$0.40 per meter, totaling roughly \$400 per kilometer for standard indoor distribution cables .
- Ruggedized outdoor or armored 4-core single-mode OS2 cable: Prices can reach \$1.80 per meter, totaling about \$1,800 per kilometer for cables designed for harsh environments, direct burial, or aerial deployment .
- Multimode OM3/OM4 4-core cables: Typically cost less than single-mode for short-distance applications, but prices vary depending on fiber quality and jacket type, generally falling between \$0.50 and \$1.50 per meter.

### Factors Affecting Cost

- Fiber Type: Single-mode (OS2) is preferred for long-distance transmission and tends to be more expensive than multimode (OM3/OM4) used for shorter runs .
- Cable Construction: Armored, LSZH (Low Smoke Zero Halogen), or direct burial cables increase the price due to enhanced durability and safety standards .
- Bulk Purchases: Ordering over 1,000 meters often qualifies for tiered discounts, reducing the per-meter cost .
- Certifications and Testing: Cables meeting ISO/IEC 11801 or TIA/EIA-568 standards may cost more but ensure lower signal loss and higher reliability ....
