

Reference Price for Swiss Ladder Cable Trays

Article Overview

Swiss ladder cable trays typically range from \$50 to \$200 per standard section, depending on material, length, and fireproof specifications.

General Pricing Overview

The cost of ladder cable trays varies based on material (aluminum, galvanized steel, or stainless steel), length, and fireproofing. Standard ladder trays are usually 2.4 to 3 meters long, with prices for hot-dip galvanized steel trays starting around \$50-\$80 per section for basic models, while aluminum or fireproof trays can cost \$120-\$200 or more per section depending on specifications and supplier .

Factors Affecting Price

- **Material:** Aluminum trays are lightweight and corrosion-resistant, often more expensive than galvanized steel. Stainless steel or fireproof trays command higher prices due to durability and safety standards .
- **Length and Width:** Longer or wider trays increase material usage and cost. Standard lengths are 2.4 m or 3 m, but custom sizes may be pricier .
- **Accessories and Fittings:** Elbows, tees, brackets, and mounting hardware are sold separately and can add \$10-\$50 per piece depending on type .
- **Supplier and Location:** Swiss suppliers or distributors may charge a premium for local delivery, compliance with Swiss standards, or fireproof certification
