

Tonga Fiber Optic Communication Enterprises

Overview

TCL is the only provider of fibre-optic services in Tonga. Prior to laying the cable, Tonga was reliant on satellite internet connections. TCL is currently looking at options to connect the Ha'apai and Vava'u groups to the cable: the SOE's ability to achieve this is reliant. Tonga Cable System is a submarine fiber-optic cable system connecting Tonga with Fiji, where it connects to other international networks. It is 827 kilometres (514 mi) long and was activated in 2013. Tonga Cable Limited was formed in November 2009, with approval of Government of Tonga, to build and manage a submarine fibre optic cable. Tonga has a population of about 102,000 and a high adult literacy rate of 99. A Tongan diaspora of about 100,000 lives in Australia, New Zealand, and the United States and is a major contributor to the economy and the level of voice traffic.
