

Top 3 in the Global Fiber Optic Communication Industry

Article Overview

Corning, Prysmian Group, and Furukawa Electric are the top three global leaders in fiber optic communications.

1. Corning Incorporated

Corning is an American company headquartered in New York and is widely recognized as the global leader in optical fiber technology, holding approximately 40% of the global market share in optical fibers. The company pioneered low-loss optical fiber in 1970 and continues to innovate with products like SMF-28 Contour fiber, which is optimized for high-density data centers and 5G small cell deployments. Corning's solutions support hyperscale data centers, telecom networks, and advanced connectivity infrastructure worldwide, making it a cornerstone of modern digital communication networks .

2. Prysmian Group

Prysmian Group, based in Milan, Italy, is a global leader in cable manufacturing, including fiber optic cables. It specializes in subsea and long-haul fiber networks, connecting continents with high-capacity submarine cables capable of transmitting over 200 Tbps. Prysmian's extensive R&D and strategic acquisitions have positioned it as a key player in Europe, North America, South America, and Asia. The company is instrumental in deploying 5G networks, smart city infrastructure, and sustainable cable technologies
