

Uganda High Voltage Complete Equipment Manufacturer

Article Overview

Key HV equipment manufacturers in Uganda include Arc Control Ltd, Elolam Transformers, JSL Power Systems, and Arbertier Engineering Company Limited, offering complete solutions from transformers to substations.

Arc Control Ltd

Arc Control Ltd, based in Kampala, is an ISO 9001:2015 certified electrical engineering company specializing in the design and manufacturing of medium and high voltage (MV/HV) switchboards, package substations, transformers, and HV switchgear. They provide complete solutions including HT switchboards up to 33kV, dry and oil-type distribution transformers, and integrated package substations containing transformers, ring main units, fuse boards, and circuit breakers. The company also offers power transmission line services and custom electrical solutions .

Elolam Transformers

Elolam Transformers is a leading manufacturer of power transformers and electric substations in Uganda and the East African region. They produce industry-certified transformers and substations, offering full-scale services from manufacturing and assembly to maintenance, repair, and rewinding. Their expertise includes on-site and off-site diagnostics, emergency response, and routine maintenance protocols, making them a reliable choice for industrial and utility clients
