

Where are cable tray factories located

Article Overview

Cable tray factories are located worldwide, with major production hubs in Europe, North America, South America, Africa, and Asia, each specializing in materials and standards suited to regional needs.

Europe

Europe hosts some of the most advanced cable tray manufacturers, known for high-quality standards and compliance with EN 61537 and ISO 9001. Key factories include:

- Niedax Group (Germany): Produces a wide range of cable trays and support systems for construction, energy, and transportation sectors.
- Spina Group (Italy): Specializes in ladder and perforated trays for heavy-duty industrial and shipbuilding applications.
- Legrand (France): Manufactures the Cablofil wire mesh trays, designed for easy installation and adaptability across industries .

North America

North American factories focus on steel, aluminum, and stainless steel cable trays, often with pre-galvanized or hot-dip galvanized finishes to resist corrosion. Companies like Hubbell produce ladder trays and modular systems suitable for data centers, commercial buildings, and industrial facilities .
