

Where to buy fiber optic cables in West Africa

Article Overview

West Africa offers a range of fiber optic cables from local manufacturers like Coleman Wires, YOA Cables, and NiaFiber, as well as international suppliers such as GL FIBER, suitable for indoor, outdoor, aerial, and duct installations.

Local Manufacturers

Coleman Wires and Cables (Nigeria) is the largest cable manufacturer in Sub-Saharan Africa and operates the first fiber optic cable plant in West Africa. They produce high-quality fiber optic cables for telecom, power, and industrial applications, supporting government and private infrastructure projects with locally made solutions. YOA Cables is another major African manufacturer, offering advanced optical fiber products with innovations like Fast Fusion Technology (FFT) for easier installation and reduced damage during setup. They focus on high-speed, flexible applications tailored for the African market. NiaFiber provides a variety of fiber optic cables, including FTTH indoor and outdoor cables, glass yarn armored cables, ADSS aerial cables, duct cables, and air-blown micro cables. Their products are designed for both residential and commercial installations, offering durability, high-speed data transmission, and environmental resistance.

International Suppliers

GL FIBER supplies a wide range of fiber optic cables suitable for West African conditions, including loose tube, tight buffer, armored, and ADSS cables. They provi...
