

Which manufacturers produce optical modules

Article Overview

Leading manufacturers of optical modules include InnoLight, II-VI (Finisar), Cisco Acacia, Broadcom, Accelink, Eoptolink, Hisense Broadband, Intel, NeoPhotonics, and Source Photonics.

Top Global Optical Module Suppliers

The optical module market is dominated by several key players worldwide. InnoLight Technology is a major Chinese manufacturer offering high-speed optical modules for 100G, 200G, 400G, and 800G applications, including 800G optical transceivers. II-VI, which acquired Finisar, provides a full range of optical modules and is a leader in high-speed optical transceivers. Cisco Acacia focuses on silicon photonics and high-performance optical interconnect devices. Broadcom (formerly Avago) supplies a broad range of optical modules for networking and data communication. Other notable manufacturers include Accelink Technologies, which develops and mass-produces optical chips and modules with vertical integration capabilities, Eoptolink, a provider of high-performance optical modules for data centers and telecom networks, and Hisense Broadband, which has a growing presence in the optical module market. Intel, NeoPhotonics, and Source Photonics are also significant players in the global optical module industry.

Additional Chinese Manufacturers

China has several emerging leaders in optical module production. Zhongji Innolight...

Top Companies in the Optoelectronics | Industry 2026

The top companies in the optoelectronics industry in 2026, including leading manufacturers of LEDs, image sensors,

The Most Comprehensive Guide Of Optical Modules

Explore the ultimate guide to optical modules. Learn types, functions, performance metrics

Chinese Optical Modules Own 7 of the Top 10 Seats. So Why Are

Seven of the global top 10 optical module suppliers in 2024 were Chinese companies (including Source Photonics,

How many listed companies are there that manufacture optical module ...

How Many Public Companies Produce Optical Module Chips? The question “how many public companies produce

Top 10 Optical Transceiver Manufacturers in the World

Sourcing optics for your data center? Discover the top 10 optical transceiver manufacturers in 2026.

Top 10 Optical Module Brand & Manufacturers

Find the Top 10 Optical Module brand, manufacturers, and exporters. Get the contact details and addresses of companies producing

Top 28 Optical Communication Systems Companies

Top 28 Optical Communication Systems Companies 1. Acacia Website: acacia-inc
Ownership type: Corporate Headquarters:

Which publicly traded companies manufacture optical chips for optical ...

Optical Device & Material Companies (Supporting Layer) This category provides fundamental materials and single

Optical and optoelectronics modules | An overview

We manufacture individual optical and optoelectronics OEM modules for our customers. The tasks and

10 Best Fiber Optic Manufacturers for 2026

Discover the best fiber optic manufacturers globally, offering cutting-edge multimode and single mode fiber solutions.

Optical Transceiver Market: Top 10 Manufacturers Ranked

Optical transceiver market leaders: the top 10 manufacturers powering 400G and 800G modules for hyperscale data

Optical Transceiver Companies

The company specializes in manufacturing optoelectronic devices for optical communications. Its product range includes chips,

Top 24 Optical Materials Companies

Edmund Optics, based in Barrington, New Jersey, is a manufacturer and supplier of optical components and systems. Established in

10 companies in the optical transceiver industry chain 2024

To help you choose the best partner, this article will analyze and introduce 10 companies in the optical transceiver

World Top 8 Best Optical Transceiver Manufacturers List You Should

The global optical transceiver market was valued at \$7.18 billion in 2020, and it is expected to reach \$14.3 billion by

Optical Modules Market Research Report 2034

These structural tailwinds, combined with ongoing cost reductions enabled by silicon photonics integration and wafer-scale
