

Wholesale of Trough-type Cable Trays in West Asia

Article Overview

Trough-type cable trays are widely available in West Asia through regional distributors and international suppliers, with aluminum, steel, and stainless steel options suited for industrial, construction, and power applications.

Overview of Trough-type Cable Trays

Trough-type cable trays are designed to support and protect electrical cables while providing moderate ventilation and protection, combining features of ladder and solid-bottom trays. They are commonly used in industrial, commercial, and infrastructure projects to ensure safe and organized cable routing, reduce damage risk, and facilitate maintenance. Materials include aluminum (lightweight and corrosion-resistant), steel (durable and heavy-duty), and stainless steel (high corrosion resistance for harsh environments), .

Regional Supply in West Asia

While specific West Asian manufacturers are limited, the region is served by international suppliers and distributors, particularly from China and Hong Kong. Companies like Kam Tai Products provide a range of cable containment solutions, including trough trays, ladders, baskets, and U-channel systems, and export to global markets. Online platforms such as Alibaba and Made-in-China list multiple manufacturers offering OEM and bulk supply options, which can be shipped to West Asia
